## **Davenport Group Ranks Among Highest-Scoring Businesses on Inc. Magazine's Annual List of Best Workplaces for 2022**

*Davenport Group named among best workplaces in Annual List of Best Workplaces for 2022*

**Lewisburg, TN - May 25, 2022** - Davenport Group has been named to Inc. magazine's annual Best Workplaces list for the third year in a row. Featured in the May/June 2022 issue, hitting newsstands on May 17, 2022, and prominently featured on Inc.com, the list is the result of a comprehensive measurement of American companies that have excelled in creating exceptional workplaces and company culture, whether operating in a physical or virtual facility.

After collecting data from thousands of submissions, Inc. selected 475 honorees this year. Each company that was nominated took part in an employee survey, conducted by Quantum Workplace, which included topics such as management effectiveness, perks, fostering employee growth, and overall company culture. The organization's benefits were also audited to determine overall score and ranking.

When Sonia St. Charles and Paul Clifford founded Davenport Group, they set out to build a company that would solve the fundamental issues facing today's Information Technology professionals. They've succeeded in this mission by cultivating a company culture that values employee contributions, time, and overall wellness. Through the challenges of the last year, the organization continues to grow by prioritizing flexibility, empathy, and relationships.

"Receiving this honor three years in a row speaks to the committed team we have at Davenport Group," says Sonia St. Charles, CEO and Co-Founder. "We know that by putting our people first and focusing on a work culture that supports the whole person, we positively impact our customers. Happy employees mean we have happy customers. Everyone wins when we put people first."

"Not long ago, the term 'best workplace' would have conjured up images of open-office designs with stocked snack fridges," says Inc. editor-in-chief Scott Omelianuk. "Yet given the widespread adoption of remote work, the concept of the workplace has shifted. This year, Inc. has recognized the organizations dedicated to redefining and enriching the workplace in the face of the pandemic."
