Davenport Group Honored on the 2023 CRN Tech Elite 250 List

Lewisburg, TN - March 29, 2023 – Davenport Group, an end-to-end IT solutions and services provider, today announced that CRN, a brand of The Channel Company, has honored Davenport Group on its 2023 Tech Elite 250 list. This annual list features solution providers of all sizes across the U.S. and Canada that have differentiated themselves by achieving the highest level and largest breadth of certifications and specializations from key technology vendors in the infrastructure, cloud, and security spaces.

Businesses rely on solution providers to maintain the highest levels of technical prowess across critical products and services to help them meet today's IT challenges and take advantage of the benefits of cutting-edge solutions. To meet these demands, solution providers such as strategic service providers, systems integrators, managed service providers, and value-added resellers strive to maintain high levels of training and certification from IT vendors and achieve the highest tiers within those vendors' partner programs.

Davenport Group is an all-in Dell Technologies Titanium Partner, as well as a VMware Principal Partner and a Microsoft Gold Partner. Through ongoing and rigorous training courses, Davenport Group's expert engineers work to maintain the high-level certifications needed to be a part of these exclusive partner programs. The commitment and knowledge of their engineers guarantee that Davenport Group customers receive the best technical advice and support for the life cycle of their technology investment.

"We are pleased to be recognized on CRN's Tech Elite 250 List again this year. This honor showcases the hard work of our engineers to stay current and also demonstrates our ongoing commitment to taking care of our customers," said Sonia St. Charles, Davenport Group CEO. "Our team stays current with technological innovations and best practices, so they know how to address the needs of every customer. With years of data center expertise and countless certifications, our engineers deliver future-facing digital transformation every day."

"CRN's Tech Elite 250 list features the leading solution providers in the IT channel with the most in-depth technical knowledge, expertise, and certifications for providing the highest level of service for their customers," said Blaine Raddon, CEO of The Channel Company. "These solution providers have continued to extend their aptitudes and abilities across various technologies and IT practices, demonstrating their commitment and value to their customers."

Coverage of the Tech Elite 250 will be featured in the April issue of CRN Magazine and online at www.CRN.com/techelite250.
